

AMENDMENTS TO THE SPECIFICATION

Please add the following new paragraph to page 12 before the paragraph beginning with “This purpose is accomplished by a combination of” (which is paragraph [0030] in the published application):

Still further yet, this invention provides a program product comprising a computer usable medium having computer readable program code embodied therein for use with a computer. The computer readable program code in said program product implementing functions effective to: make wireless communications for connecting to a predetermined wireless network; acquire an information indicating that an access point for connection to the wireless network is a hidden access point where an identification information from a connection list table storing the identification information of a wireless network is not present; and confirm the connection to the wireless network by attempting an actual connection to the hidden access point.
